

FSC-Certified Papers

www.fscCanada.org

April 2, 2009

The Forest Stewardship Council (FSC) is an international certification and labeling system for products that come from responsibly managed forests, and verified recycled sources. Under FSC certification, forests are certified against a set of strict environmental and social standards, and fibre from certified forests is tracked all the way to the consumer through the chain of custody certification system. This means forests, pulp providers, mills, merchants and printers must all obtain FSC certification in order for a product to carry the FSC logo or label.

The following is a list of FSC-certified papers available in North America. Please note that for some papers, you must specify to the paper merchant that you would like to purchase the FSC-certified grade since there may be both a certified and non-certified version of the same paper. Only companies that are FSC Chain of Custody certified are allowed to place the FSC label on a certified product.

Having trouble searching through this list?

Do a quick search through this document by pressing Ctrl + F and enter the name of the paper you are looking for. A similar list is also available on the FSC Canada website: www.fscCanada.org/FSCpaper.htm

Can't find the paper you are looking for?

Take a look at our website for new FSC-certified papers that are in the process of being added to our list, www.fscCanada.org/FSCpaper.htm

Uncoated Offsets

Uncoated offset papers have a slightly fibrous surfact with the quality characteristics needed in order to withstand the rigors of offset presses.

Used for: communications and advertising such as direct mail, reports, or magazines

Coated Offsets

Coated offset papers have a smooth clay or latex coating applied over a freesheet or groundwood base paper with the quality characteristics needed in order to withstand the rigors of offset presses. They are available in a variety of finishes, such as gloss, dull and matte and a variety of grades (levels of quality).

Used for: books, art-quality posters, high-end advertising, frequently for high quality magazine, advertising, brochures, catalogs.

Fine Text and Covers

Fine text papers are designer papers, both in white and colours, with a variety of finishes, and often lightly patterned. Fine covers are heavier papers appropriate for stiffer paper needs.

Fine text used for: letterhead, brochures, invitations, and other kinds of communications.

Fine covers used for: business cards, stiff brochures, report covers.

Bonds and Writing

A heavier paper often used as stationary or letterhead. The finish is frequently smoother, for compatibility with laser printers and photocopies.

Used for: correspondence, letterhead, office and home printing.

Paperboard & Packaging							
A material similar in shape and composition to paper, but generally thicker, stronger, and more rigid. The function of a particular type of paperboard is often indicated by its name, e.g., <i>boxboard</i> . Paperboard can be made into a wide variety of items, including folding cartons, advertising displays, electrical insulators, and coasters.
